Colleagues,

Many of us plan to draw a pension though the State Employee Retirement System (SERS) upon retirement. The ability of the pension system to pay out depends upon the management of its trust fund, and there are elections to the board (PRIM) that manages the fund starting later this month.

If you are a member of SERS, please keep an eye out for a mailing late this month from SERS/PRIM. We strongly encourage you to **vote for Lenore Palladino**, a professor of economics and public policy here at UMass. She's endorsed by the MTA, and she has studied and written about the pension system and the financial issues at the basis of PRIM's operations.

We've attached a longer letter from the MTA's Task Force if you would like more information, and we'll send out a reminder once we see the ballots in our own mailboxes.

In Solidarity,
Jacquie Kurland and Marc Liberatore
