

## **5/5/2022 [Allunit] Organizing Against Racism**

To the UMass Amherst community,

The MSP leadership was horrified to hear that once again Black students on campus have been targeted with racist emails. In the wake of this disturbing event, we reaffirm our commitment to organize against racism at UMass and beyond. We recognize that the work of building a just society requires not just opening the doors but transforming our institutions so that they can be places where Black students, staff, faculty, and librarians can thrive. We are ready to lend our support to the initiatives taken by Black-led groups on campus, and we will continue to center equity and justice in our own work as the union of faculty and librarians at UMass Amherst.

In Solidarity,

the MSP Executive Committee
